SKILLS:

Programming: Embedded Linux, Python, JavaScript, HTML5/CSS3, Ruby, Bash, Jekyll, SCSS, Agentic IDEs, MySQL
Web Development: Responsive design, React, DOM manipulation, CSS animations, Git version control, Node.js, Apache, PHP

PROJECTS:

Nadette AI Personal Assistant – [Nadette AI Assistant](#)   **November 2025 – Present**
- Used Twilio for callable phone service and Eleven Labs for TTS to send emails, texts, and schedule events from natural language
- Added functionality which allows the user to hang up to execute spoken requests, better simulating time-sensitive scenarios
- Engineered custom command schema and orchestration using python to run any number of commands from one request

High fidelity Loop-Once Gif Signature Generator – https://www.gifsig.com   **October 2025 - Present**
- Leveraged node.js's draw functions to create a responsive and interactable canvas and brush strokes with extensive user features
- Established reliable cropping which creates an ideally fit crop for each gif, even with edge cases where strokes go out of frame
- Coordinated full database system for rapid sign-ups, deletions, and accurate visual display of stored gifs after each operation

Newsway News Summary – https://www.newsway.ai   **March 2025 - Present**
- Engineered real-time news summary system utilizing Python RSS parsing via Google Gemini API to summarize breaking news
- Utilized Gemini's innate sentiment analysis combined with a structured backend prompt to assign optimism scores to each article
- Established a reliable pipeline which parses Gemini's output and uses JSON to repopulate two html documents every 10 minutes

TrueAutoColor Ableton Live Track Layout Maker – [TrueAutoColor](#)   **May 2024 – Present**
- Shipped desktop App using Electron and Ableton's Api creating real-time track and clip color changes from track name changes
- 55+ copies have been sold so far through an automated market pipeline on gumroad.com, with only one refund so far
- Interfaced with Ableton via Python and event handlers internal to Ableton which read the layout maker's updated json file

WORK EXPERIENCE:

Blink Fitness, New York, New York   **January 2025 – Present**
Assistant Gym Manager (October 2025 – Present)
- Oversee scheduling, supply orders, overall gym cleanliness, and inventory across a team of 14 to maintain seamless operations
- Contribute to PureGym's NPS metrics ranking first across all Manhattan and Queens Facilities

Front Desk Associate (January 2025 – October 2025)
- Lead opening/closing procedures and process POS transactions for training products and merchandise
- Resolved member inquiries promptly via phone and in-person communication, maintaining high customer satisfaction

Outlier Inc., New York, New York   **May 2023 – January 2025**
Large Language Model Quality Control, independent contractor (May 2023 – January 2025)
- Reviewed high-volume LLM prompts and responses for state-of-the-art language models to ensure quality standards
- Classified and ranked Model's responses using established quality control measures and evaluation guidelines
- Evaluated colleagues' reviews and classifications to uphold consistent quality control standards across review team

Crystal Cruises Inc., Miami, Florida   **June 2022 – December 2024**
Band Master (June 2022 – December 2024)
- Managed musical operations for Crystal Serenity's inaugural season, earning positive reviews from returning guests
- Supervised and scheduled 8+ musicians using the Microsoft Office Suite to optimize daily performance and guest experience

EDUCATION:

S.U.N.Y. New Paltz, New Paltz, NY   **May 2019**
Bachelor of Science, Mathematics
