Educator and IT specialist in NYC with a B.S. in Mathematics, designing instructional programs in foundational computing while troubleshooting systems and building automation tools in Python and JavaScript.

SKILLS:

Teaching: Curriculum Architecture, Foundation Training, Technical Translation, Active Learning Facilitation

Tools & Scripting: Remote support tools (RDP, TeamViewer, AnyDesk), ticket system workflows, Powershell

Security: Endpoint antivirus, malware/ransomware remediation, disk encrypt (Bitlocker/Firevault), data recovery

Networking: TCP/IP, DNS, DHCP, VPN, RDP, Wi-Fi troubleshooting, routers, switches, firewalls, LAN/WAN

EXPERIENCE:

Perfect Computer Solutions, New Paltz, New York (Remote)

2020 – Present

Lead IT Technician (2020 – Present)

- Designed and taught sponsored classes for middle school students on computer repair and technology fundamentals, breaking down hardware components and troubleshooting logic, into interactive lessons
- Troubleshoot OS and component failures with structured diagnostics, restoring machines to full function at high first-visit resolution rates
- Repaired laptops and desktops at the component level: SSDs, RAM, power supplies, and screens
- Reimaged Windows 10/11 and macOS systems, installing drivers, applying security patches, and migrating user profiles and data with zero loss
- Configured and troubleshoot networks: routers, switches, Wi-Fi, TCP/IP, DNS, and DHCP

Outlier Inc., New York, New York

May 2023 – January 2025

Large Language Model Quality Control (May 2023 – January 2025)

- Reviewed and ranked 1000+ LLM prompts and responses for leading language models, upholding strict accuracy benchmarks
- Audited peer evaluations and classification labels, maintaining review protocols among all analysts

Newsday News Summary – www.newsday.ai

March 2025 – Present

- Engineered continuous news summary agent utilizing Python RSS parsing via Google Gemini API to summarize breaking news
- Utilized sentiment analysis with a backend prompt to assign optimism scores to each article, serving 300+ monthly active users

TrueAutoColor Track Layout Maker – coryboris.gumroad.com/l/TrueAutoColor

May 2024 – Present

- Packaged with Electron, using Ableton's API to set track and clip colors from track names
- Sold 65+ copies through an automated gumroad.com pipeline, driving organic SEO traffic

iDrawMap Canvas Map Search – www.idrawmap.com

January 2026 – Present

- Built a draw-to-search map app enabling proximity search tools for locations bound by any polygon drawn
- Implemented three- and four-stop direction routing via Google Maps links, encoding route details in URLs

EDUCATION:

S.U.N.Y. New Paltz, New Paltz, NY

Bachelor of Science, Mathematics
