SUMMARY:

Software developer with a B.S. in Mathematics. Five independently shipped applications spanning AI, geospatial, and creative tooling, including a news bot with 300+ monthly active users and a color automation program for professional music software (60+ licenses sold)

SKILLS:

Programming & Technical: Python, JavaScript, Node.js, HTML5/CSS3, REST APIs, Git/GitHub, & Machine Learning

Tools & Platforms: Electron, Twilio API, Google Gemini API, Canvas API, UI/UX Wireframing, & Interactive Prototyping

EXPERIENCE:

Nadette AI Personal Assistant – github.com/nadette-agent/nadette-adjoint **November 2025 – Present**

- Used Twilio for callable phone service and Eleven Labs for TTS to send emails, texts, and schedule events from natural language
- Added functionality which allows the user to hang up to send and process spoken requests, facilitating realistic scenarios

High fidelity Loop-Once Gif Signature Generator – www.gifsig.com **October 2025 – Present**

- Leveraged node.js's draw functions to create a responsive drawing canvas which records user input & outputs as a loop-once gif
- Designed automatic cropping algorithm that produces optimally sized output for each animation, handling boundary overflow

Newsday News Summary – www.newsday.ai **March 2025 – Present**

- Engineered continuous news summary agent utilizing Python RSS parsing via Google Gemini API to summarize breaking news
- Utilized sentiment analysis with a backend prompt to assign optimism scores to each article, serving 300+ monthly active users

TrueAutoColor Ableton Live Track Layout Maker – coryboris.gumroad.com/l/TrueAutoColor **May 2024 – Present**

- Packaged using Electron, operates via Ableton's Api creating live track and clip color changes from track name changes
- Sold 60+ copies via an automated distribution pipeline on gumroad.com, driving organic traffic through SEO optimization

iDrawMap Canvas Map Search – www.idrawmap.com **January 2026 – Present**

- Built a draw-to-search map app enabling granular proximity search tools for locations strictly bound by any polygon drawn
- Implemented three- and four-stop direction routing via Google Maps deep links, encoding full route details in shareable URLs

PureGym, New York, New York **January 2025 – Present**

Assistant Gym Manager (January 2025 – Present)

- Direct floor management, supply procurement, and inventory control for a 14 member staff to keep the facility running smoothly
- Achieved 80+ NPS at NoHo PureGym, claiming top rank out of every Manhattan and Queens branch via proactive engagement

Outlier Inc., New York, New York **May 2023 – January 2025**

Large Language Model Quality Control (May 2023 – January 2025)

- Reviewed and ranked 1000+ LLM prompts and responses for leading language models, upholding strict accuracy benchmarks
- Audited peer evaluations and classification labels, maintaining rigorous review protocols and calibration among all analysts

Crystal Cruises Inc., Miami, Florida **June 2022 – December 2024**

Band Master (June 2022 – December 2024)

- Launched all musical programming for Crystal Serenity's inaugural season, overseeing event logistics across onboard venues
- Managed rehearsal calendars and assignments for 8+ musicians via Microsoft Office Suite, elevating the guest entertainment

Perfect Computer Solutions, New Paltz, New York **May 2017 – August 2019**

Lead IT Technician (May 2017 – August 2019)

- Built client intake automation and led data migration projects, accelerating turnaround on hardware triage and service records
- Troubleshoot OS and component failures with structured analysis, restoring machines to full function at high first visit rates

EDUCATION:

S.U.N.Y. New Paltz, New Paltz, NY

Bachelor of Science, Mathematics

May 2019
